

## SOONER ENTERTAINER IS BOUND FOR TULSA

Cora Youngblood Corson Telegraphs Relative Here on Arrival in New York City.

### ENTERTAINED THOUSANDS

Spent Two Years in Europe Playing for Yanks—Sang to Wilson and English Notables.

Cora Youngblood Corson, widely known Oklahoma girl musician, and her nine young lady instrumentalists, arrived in New York yesterday on the French liner *Touraine*, after two years in Europe. This news was contained in a telegram from her to her brother-in-law, Glenn Condon of Tulsa.

Miss Corson has the honor of having played before more allied soldiers than any other living woman. For 18 months she played continuously in the British Isles at the theaters, and there never was a day that she did not entertain at one or more military hospitals or camps.

She then went to France, where she was the only entertainer of her sex to play under knight of Columbus auspices. She played before every unit of the army of occupation in Germany and later toured the various camps in France. Just prior to sailing for home she and her girls were the features at a big *K of C* "Carnival" in Brest. Every day they were taken around the harbor in a launch and each departing transport was given a concert.

She played for President Wilson at Manchester, England, and has appeared before Douglas Haig, Marshall Joffre, President Poincaré and many other notables.

She is now known of millions of "doughboys" as the "K C girl."

Miss Corson intended going to South Africa for a brief theatrical engagement before returning home, but was forced to hasten her departure on account of the actors' strike in New York. She is chief deputy national organizer of the American union and will spend a few weeks in New York and Washington on business in this connection before coming to Tulsa. It is possible that she will bring her entire company of overseas entertainers to this city and appear at a local theater.

### MAJOR FAHNESTOCK RICHEST AMERICAN TO DIE IN FRANCE

HARRISBURG, Pa., Aug. 24.—Major Clarence Fahnestock, whose family resided in this city for many years, was the richest American to lose his life in the service during the war in Germany.

The sum was revealed by the tax appraisers of Putnam county, New York, after the appraisal of the Fahnestock estate, which is assessed at \$4,500,000. After all deductions are made, the state of New York will receive an inheritance tax of \$242,575.

Major Fahnestock contracted pneumonia while serving at the front in France, which resulted in his death.

### SOMERSAULT CHAIR IS FOUND TO CURE ILLS

WAUKESHA, Ill., Aug. 24.—If your blood circulation needs stimulating or your digestive organs are out of order, if you are afflicted with fainting spells or if you would like to add a rosy tint to those yellow cheeks, Henry J. and Bernard Backman, brothers, this city and Lowell, Ind., will sell you one of their latest inventions—the somersaulting chair—a sure cure for all of the above ailments.

The brothers say several physicians have tested the chair and found it effective.

The real purpose of the somersaulting chair is to shake up organs not functioning properly. The patient, after being securely strapped into the chair, turns a small crank attached to an arm rest starting the chair's gyrating motion.

It failed to be perfectly balanced with three speeds, regulated by pressure on the crank.

### AMATEUR PATCHING RUINS MANY TIRES, SAYS EXPERT

Amateur tire patching ruins thousands of automobile tires each year. It is a common practice among automobile owners when receiving a cut or puncture in a tire to insert a patch on the inside of the casing at the point of injury, thinking that the damage is permanently repaired. Such repair will in time rain any tire, says the B. F. Goodrich Rubber company.

It is good practice to apply patches in such cases but a tire sleeve should always be placed on the outside of the tire opposite the patched portion at the same time. The sleeve serves to bind the tire, hold the torn and injured parts of the fabric in place and prevent further chafing and rupture.

The tire sleeve and patch are merely "first aid" appliances and should be removed as soon as earliest possible convenience. It will pay motorists to do so the nearest repair man immediately after the injury occurs. If allowed to run without repair every time the wheel makes a revolution the tire quickens its pace toward the scrap heap.

### TWO HUNDRED MILLIONS CLAIMED BY COAL MINER

GREENSBURG, Pa., Aug. 24.—An estate in County Kildare, Ireland, consisting of 12,000 acres of land, with its ancient castle and \$220,000,000 in money held in chancery in the Bank of England are claimed by Thomas Barfield, a Scotchman near here. The property belongs to General Patrick Barfield, the miner's uncle, and the claimant says that he is the oldest living and principal legatee.

Subsidy to Rooming Houses LONDON, Aug. 24.—At a conference on rooming houses held in London, it was announced that the government had recognized the social value of these watering places and had granted the concession that they be utilized among hard-hit lodgings houses to aid them in furnishing.

## More of Irish Question

Ireland Asks Only Those Natural Rights Claimed By President Wilson to Belong to People of Every Nation.

BY JAMES DIVINE

President Wilson said peace should rest upon the rights of the traditions and principles of America we have just witnessed the spectacle of our representatives at the peace conference agreeing to cut out of the republic of China the province of Manchuria, one of the provinces in the country with 100,000,000 people, contrary to their will and wishes and delivering them over to the despotism of Japan. If our country does not recognize that grand old American principle that governments derive their just powers from the consent of the governed, Ireland by a vote of 1,169,000 to 209,000 decided to establish a republic. Why does not the United States do the same? This was contained in a telegram from her to her brother-in-law, Glenn Condon of Tulsa.

If this had been the law of the United States in 1898 when we went to the assistance of the persecuted people of Cuba, they still might be under the domination of Butcher Weyler.

If this had been the law of France at the time of our revolution they would have grabbed Lafayette by the neck and sternly and effectively prevented him from coming to our assistance.

### APPERSON FEELS THE TENDENCY OF TIMES

Although Cars Will be More Expensive New Features Will be Eliminated, Says the Company.

From the general offices of the Apperson Brothers Automobile company, in Kokomo, Ind., comes the announcement that this pioneer company also has been forced to adjust its prices on the standard models.

The Apperson Anniversary, which is built in the seven-passenger touring and the four-passenger sedan, will remain at the same price, which is \$1,000. The new standard six-passenger coupe and the four-passenger sedan of the same model will not be \$2,950.

In announcing this price the company informs the dealers that the cars will carry some additional equipment which heretofore has never been furnished.

The models on the standard chassis will be at \$4,000 in all types—new—seven-passenger sedan, six-passenger sedan, four-passenger tourer, four-passenger two-door coupe, and the four-passenger sedanette.

These prices will become immediately effective on August 15 and will apply on all cars shipped after that date.

#### Knee Bathing Suits

GALVESTON, Texas, Aug. 24.—Bathing suits with "trunks extending to the knees" must be worn by all bathers. Chief of Police M. J. Wedgwood has issued an order forbidding the wearing of knee-length bathing costumes.

"Men and women are appearing on the beach in very scant attire in the bathing suit line," the chief said.

Some of these modern bathing suits are scarcely more than trunks. There is an ordinance which provides suits must reach to the knees and I have passed instructions to all police officers to enforce the ordinance."
